PRICE 5 CENTS

HAWAII'S ALOHA WINS EVERY LOS ANGELES HEART

DEPARTING GUESTS TELL WHAT THEY THINK OF HAWAII

AFTER TEN DAYS of what has been almost entirely joy, for days twenty-four hours long, the two hundred and fifty people making up the pioneer excursion of the Los Angeles Chamber of Commerce to Hawaii are leaving at 2 o'clock this afternoon.

The Bulletin has told the story of what this happy party has been doing from day to day. It remains for the people themselves to give their opinion of what Hawaii's Aloha has meant to them, and whether they are glad they came. Most of the party have devoted the time to sight-seeing. Some have done business. One man said he had not done much, as one new customer took only a dozen cases of his goods and the other a car load.

Honoluluans and the people of Hilo have gained great pleasure from the visitation. What some of the people have to say for themselves and of Hawaii is given as they told it to Bulletin reporters:

FRANK WIGGINS

"This trip has been a great education to all of us. We have been surprised at the large variety of industries you have here and the great possibilities for trade. That is a matter which our Chamber of Commerce is going to take up earnestly. Many of the party have told me that they intend to return and locate here."

DR. J. E. COWLES

"You have a better climate than we have without a question, as you have all the advantages of Southern California without the chill of our mornings and evenings. I came here somewhat prejudiced against you, as I had heard that the mosquitoes were very bad here. I also had an idea that the sanitary conditions and arrangements were very poor, thinking that they were now as they were about ten or twelve years ago. However, I have had the pleasure of meeting the Board of Health of this city, and I have found that it has been doing some excellent work on sanitary lines, and I believe that it is largely due to its efforts that conditions have been so much improved. For instance, the mosquito campaign has been a great thing, well planned and excellently carried out."

"I have been practicing as a physician in Los Angeles for the past 30 years, but others and myself have heretofore felt considerable hesitancy about sending people to the islands. We had doubts about the climate and thought that the mosquitoes and the lack of proper sanitary arrangements would prove a great inconvenience. Now, however, I will not be able to say too much good about Honolulu and the climate and conditions here."

J. R. MCKINNEY

"I am not a Los Angeles man, but come from Colorado Springs. Yes, I own some pretty large beet sugar interests, and have been considerably interested in your sugar industry. Of course, sugar is the big thing here, and you have certainly done marvels, both in the way of cultivation in the fields and in sugar-house manufacture. I do not suppose that there is any other place in the world where they are able to produce so large an amount of sugar per acre as you do here."

"I find that the islands are up against the same great problem which is causing us trouble, namely: the labor question. We have been using Japanese, Russians, Galicians and other nationalities in our fields and factories, and a great percentage of our labor was Japanese. Now the immigration of Japanese laborers has been stopped entirely as far as we are concerned, and we will have considerable more trouble in getting labor. The islands, I consider, have been exceedingly lucky in that the new immigration law does not affect them. As it was, nothing could please us better than to be able to import a few hundred thousand Chinese, as we cannot draw any longer from the South, where they are already short of labor, and we must get labor from somewhere. I expect that island planters would not object to the importation of a bunch of Chinese laborers, either."

"As far as the trip is concerned, I must say that the party has been remarkably well entertained, and that everyone of us has been pleased with it. The climate was a bit windier than we had expected; still I understand that that is not a normal condition, and in spite of that, every minute of the entire trip has been one of enjoyment."

MISS ALICE E. HINES

"You can see how much I like Honolulu when I tell you that I am going to stay longer and will not go back on the Ohio. I wish that more of the party could stay and many would if they could only be sure of passenger accommodations when they want them."

Representative John Hughes Makes Salary Grabbers Hunt Cover

HOUSE

26th Day—Forenoon Session

The general feeling among the people regarding the County salary grab has at last got under the skin of some of the grabbers, and several of those who before took part in the effort to waste the people's money fairly fell over themselves this morning in their efforts to range themselves on the side of economy.

But Representative Kaleiopa was almost rabid on the subject, and in several noisy and illogical speeches did his best to hold the other grabbers to his standard. The Supervisorial grab is the one on which he takes his stand, and he fought hard to keep from having it knocked out and to hold his former adherents, whom he saw gradually slipping away from him, under the pressure of public opinion.

Incidentally, he objected strenuously to newspaper criticism. The denomination of his pet measure a "grab" evidently hurts. Sheldon, too, one of the chief grabbers from Kauai, has had the prod of press criticism get home under his skin, and showed that he feels the prick by advising his fellow members "not to mind what the newspapers say."

John Hughes is the man who went after the grabbers. His motion to postpone indefinitely further consideration of the grab bill had about the same effect as a mouse turned loose in a sewing society. It created consternation among those who have been trying to get rid of the people's money by the payment of extravagant salaries to County officials. Many of them, when they saw the storm coming, hastened to get under cover by claiming that they had always been opposed to some provisions of the bill, anyway.

The matter was not definitely settled, but was postponed until next Thursday. **Kaleiopa Discovers a Grab**—Kaleiopa, the Representative who was chiefly instrumental in jamming through the House Committee of the Whole the County salary grab, this morning developed a sudden horror of grabs and arose in virtuous indignation to object to a bill which he termed a grab, and also to take a slap at the press for its report of his part in the salary grab.

The cause of his remarks was the bill to give Deputy Tax Collectors 5 per cent. on their collections of personal taxes in addition to their regular salary. The committee recommended the passage of the bill.

Kaleiopa waxed exceedingly indignant over the measure. "This is a grab," he said, "and a pretty big grab. The gentlemen of the press sitting over there, who raised such a howl over raising Supervisors' salaries to \$900, and called that a grab, can see that there are other grabs. I don't see why the Tax Collectors can't work for their salaries without having to have a commission added."

Honolulu Grab-Box—Sheldon, the country lawyer from Kauai, took the opposite view of the matter, but he also took occasion to show that the criticism of the press has touched him in a tender spot. "This is a good bill," he said, "and I support it. Why, on the mainland Tax Collectors are paid as high as 25 per cent. for collecting personal taxes. This is not a grab. Never mind what the newspapers say." He hinted strongly at grafting in the Tax Office of Honolulu, which he called the "Honolulu grab-box."

Rawlins thought it exceedingly bad taste for the gentleman from Kauai to hold his former adherents, whom he saw gradually slipping away from him, under the pressure of public opinion.

APRIL FOOL FOR "DOCTOR" WALLACH

Moanauli Still Harps On Discredited Fake

HOUSE

26th Day—Afternoon Session

Moanauli introduced another of his brilliant resolutions in the House, this time asking that "Doctor" J. Lor Wallach be permitted to go to Molokai to practice on the lepers there. The resolution was postponed for consideration to a very appropriate date—April Fool's Day—on motion of Fall.

The resolution read as follows: Resolved, that it is the sense of the House of Representatives, the Senate concurring, that it is for the benefit of the people in this territory that Mr. Wallach may be permitted by the Board of Health to engage in the treatment of leper at the Kalihii Receiving Station, according to the provisions of section 1127 of the Revised Laws.

It is further resolved, that the Board of Health is hereby humbly requested to give the said Mr. Wallach the proper permission according to Section 1127.

And it is further Resolved, That some patients at Kalihii may be given under the control of said Mr. Wallach for the term of six months, the Board of Health paying the expenses of keeping said patients at Kalihii.

And it is further Resolved, That a certified copy of this resolution may be sent by the clerks of the House and Senate to the Board of Health.

Coney promptly objected to any such fool measure being considered by the House and moved that it be tabled, but Moanauli made one of his characteristic speeches in support of it, saying that the resolution had more merit in it than some of the members appeared to think. He asked that it be considered on its merits.

It was Fall's motion to postpone the matter to April Fool's Day appeared to appeal to the House as about the most fitting solution of the problem and it was adopted.

RAILROAD WINS

The jury in the suit of E. J. McCarthy against the O. R. & L. Co., for \$10,000, for having been ejected from a train in 1904, this afternoon returned a verdict in favor of the defendant.

The jury consisted of R. W. Cathcart, Thos. H. Kennedy, R. W. Podmore, St. C. Sayres, John K. Prendergast, L. K. Sheldon, John Duncan, James Arcia, Fred J. Turner, Henry Andrews, M. F. Cunningham and Hiram Kolomoku.

Get your long white silk gloves at L. B. Kerr & Co.'s Alakea street.

BURTON OUT OF JAIL

(Associated Press Special Cable) IRONTOWN, Mo., March 22.—Former United States Senator Burton, who has been serving a term in prison for accepting bribes, was released today.

Ruef Sells His Property

(Associated Press Special Cable) SAN FRANCISCO, Cal., March 22.—Boss Abe Ruef is selling much of his property, presumably to realize funds for his legal fight.
